

Skyros - Tuneable Absorber

Absorption
PRO AUDIO & STUDIO

Specifications

Finish: Fabric Finish

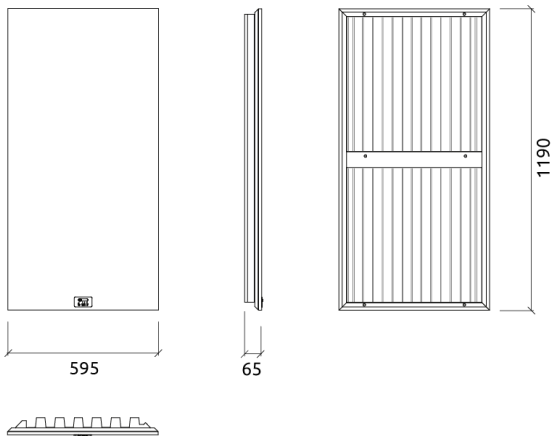

Installation: FixArt Tube | FixArt Metal

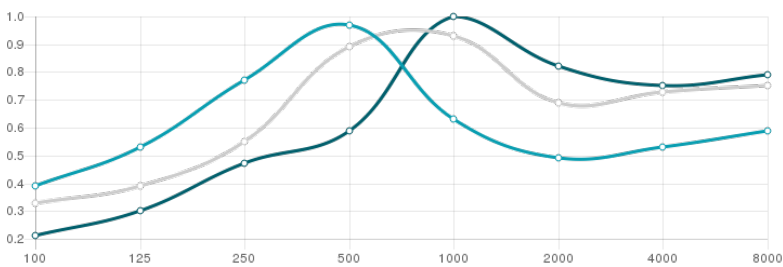

Description

Skyros is a flagship product for the professional audio market, used solely for the treatment of Mid and high frequencies in a room. Skyros' unique technology allows adjustment to target a specific range of mid and high frequencies, from 125Hz to 8000Hz. For a more efficient acoustical treatment we recommend installing on the walls. With a simple and timeless design, Skyros comes with a fabric or Wood finish available in different colours and adjustable to your unique preferences and environment.
