Technical Information

Features

Absorption Range: 350 Hz to 5000 Hz

Acoustic Class: B | (aw) = 0,85

(FG) Materials:

- Fire retardant acoustic fabric
- Marine grade plywood structural frame
- Calibrated cell acoustic foam

Equipped with twenty-one M6 Screw Thread receiver

Dimensions:

FG - PF | 1190x1190x39mm | 4.85 Kg

Fabric Absorber

Venice custom print is the go-to solution for quality high resolution acoustic artwork. Any design can be printed on to the panel, be it your favourite movie poster, artwork, a family photo or even your company Logo.

The printing is carried out directly onto the fabric using water based pigments. The fabric undergoes a special heat conditioning process to ensure long-lasting vibrance and UV protection. No additional chemicals are used in the preparation or printing of the fabrics - A truly eco-friendly method.

Venice is equipped with a 100% recycled acoustic core and can easily be mounted on any surface.
