Technical Information

Features

Type:
Absorber

Absorption range: 200 Hz to 5000 Hz

Acoustic Class: A | (α_w) = 0,95

Available fire rate:
FG | Furniture Grade

Material:
- Acoustic fabric
- Marine grade plywood structural frame
- Calibrated cell acoustic foam

Equipped with fourteen M6 Screw Thread receiver

Dimensions:

FG - PF | 595x1190x56mm | 2.25 Kg

Turim custom print is the go-to solution for quality high resolution acoustic artwork. Any design can be printed on to the panel, be it your favourite movie poster, artwork, a family photo or even your company Logo.

The printing is carried out directly onto the fabric using water-based pigments. The fabric undergoes a special heat conditioning process to ensure long-lasting vibrance and UV protection. No additional chemicals are used in the preparation or printing of the fabrics - A truly eco-friendly method.

To find out more information on how to prepare images to print, check out our guide at the bottom of the page. Be aware that the copyright of any image is the exclusive responsibility of the client.
